## PROFESSIONAL EXPERIENCE

**Oaktree Capital Management**  
**Full Stack Developer - Contractor**  
**Staffing Company - Clarista.io**

**May 2023 - Present**

Led complete development of the Drdoc app , involving design , development , unit testing and deployment of the app . Designed figma screen according to the client requirements leading to 95% client satisfaction.

Accomplishments:

- Developed dynamic and responsive React pages using TypeScript, providing smooth user experiences and seamless interactions.
- Engineered AWS Lambda functions using TypeScript to seamlessly fetch data from Amazon RDS, optimizing performance and scalability.
- Participated in Agile/Scrum development methodologies, attending daily stand-ups and contributing to sprint planning and retrospectives.
- Proactively cooperated with backend team for on time delivery of modules
- Pioneered the implementation of the Jest unit testing framework, achieving a 35% decrease in post-release issues and elevating code quality.

**Clarista.io**  
**Front End Developer**

**May 2022 - Present**

Designed and developed 5 key modules for the Clarista app. Spearheaded the development and integration of Chatgpt api in the app thereby increasing sales by 50% . Decreased loading time of the app by 45% using lazy loading and code splitting techniques

Accomplishments:

- Utilized Redux for state management, reducing data inconsistencies and improving application performance, leading to a 40% decrease in frontend bugs.
- Modernized application architecture by migrating complex class-based components to functional components using React Hooks, resulting in improved readability, reduced code complexity
- Implemented global CSS classes to reduce development time
- Proactively cooperated with backend team for on time delivery of modules

**Opsveda Inc.**

**Feb 2021 - April 2022**

**React JS Developer**

Promoted from intern to React developer , contributing in migrating Opsveda app from angular to react architecture , also implementing new modules / features leading to 2 new clients .

**Accomplishments:**

- Developed and Designed multiple modules in the product using the best React practices and concepts for better customer satisfaction.
- Integrated complex grid / chart libraries for a more interactive UI experience .
- Developed components which deals with huge datasets ( 10000+ rows) using lazy loading for a smooth user experience.
- Participated in Agile Scrum meetings and standups for on time delivery of modules.
- Integrated Material UI library to improve user experience of the app
