About Me

Talented , task-driven professional with 2+ years of experience in web design and development using React JS. Flexible to adjust in any environment and produce best results. Proficient in creating user interfaces , CSS animations , implementing complex modules , reducing application response time etc.

Experience

Oaktree Capital Management

May 2021 - Present

Full Stack Developer (Contractor)

- Developed dynamic and responsive React pages using TypeScript, providing smooth user experiences and seamless interactions.
- Integrated Tailwind UI for smooth and seamless user experience
- Integrated React-Query library for managing data request.
- Built and maintained AWS Lambda functions using Node.js for serverless backend logic, optimizing performance and scalability.
- Implemented Jest test cases for unit testing React components and AWS Lambdas
- Utilized Git for version control, following best practices for collaborative development and code review.
- Participated in Agile/Scrum development methodologies, attending daily stand-ups and contributing to sprint planning and retrospectives.
- Ensured code quality and maintained high test coverage through unit testing and end-to-end testing frameworks.
- Developed project with latest React technologies like Vite , pnpm , useQuery , Jest , Redux .
- Resolved complex technical issues and bugs, working closely with cross-functional teams to find efficient solutions.

Clarista.io

May 2022 - Feb 2023

React JS Developer

- Built responsive website for different screen sizes involving complex components such as Grids , Tabs , Dropdowns etc.
- Implemented Redux architecture in the app for better state management and reduce unnecessary Re-rendering of app
- Integrated React-Query library for managing data request.
- Proactively cooperated with backend team for on time delivery of modules
- Converted class based components to hooks for better code reusability and maintenance
- Implemented global CSS classes to reduce development time

Opsveda Inc.

Feb 2021 - April 2022

React JS Developer

- Developed and Designed multiple modules in the product using the best React practices and concepts for better customer satisfaction.
- Reduced the loading time of app by 20% using code-splitting and lazy loading resulting in better user experience
- Integrated complex grid / chart libraries for a more interactive UI experience .
- Developed components which deals with huge datasets (10000+ rows) using lazy loading for a smooth user experience.

Education

2021-23

IIIT Pune

M.Tech - CS

2017-21

Pune University

B.E. - CS

Skills

Javascript 

React 

CSS 

HTML 

Hobby

- Football
- Competitive Programming
- Cricket
- Typing

Achievements

- Gate 2021 AIR - 3420
- 1st Rank in Python Programming Competition in D.Y. Patil College
- Top ranker in all Semesters of B.E.
