About Me

Software Developer with 2.5+ years of work experience in established companies developing web apps using React JS. Collaborated with business clients/ stakeholders to design & develop UI screens leading to 97% user satisfaction. Consistently adhered to industry standards, writing clean and maintainable code, and ensure optimal performance. Thrived in fast-paced startup settings, leveraging agile mindset to adapt to evolving project scopes and deliver results that align with business expectations.

Experience

Oaktree Capital Management
May 2023 - Present

Full Stack Developer (Contractor)

- Developed dynamic and responsive React pages using TypeScript, providing smooth user experiences and seamless interactions.
- Implemented reusable and maintainable components using React Hooks, reducing development time by 30% and enabling faster feature delivery
- Engineered AWS Lambda functions using TypeScript to seamlessly fetch data from Amazon RDS, optimizing performance and scalability.
- Pioneered the implementation of the Jest unit testing framework, achieving a 35% decrease in post-release issues and elevating code quality.
- Collaborated with cross-functional teams to gather requirements and implement design mockups, delivering 5 high-quality web modules on time and within scope.
- Participated in Agile/Scrum development methodologies, attending daily stand-ups and contributing to sprint planning and retrospectives.
- Optimized Virtual DOM rendering cycles and implemented lazy loading, reducing initial load times by 50% and improving user experience.

Clarista.io
May 2022 - Present

React JS Developer

- Built responsive website for different screen sizes involving complex components such as Grids , Tabs , Dropdowns etc.
- Utilized Redux for state management, reducing data inconsistencies and improving application performance, leading to a 40% decrease in frontend bugs.
- Proactively cooperated with backend team for on time delivery of modules
- Modernized application architecture by migrating complex class-based components to functional components using React Hooks, resulting in improved readability, reduced code complexity
- Implemented global CSS classes to reduce development time

Opsveda Inc.

Feb 2021 - April 2022

React JS Developer

- Developed and Designed multiple modules in the product using the best React practices and concepts for better customer satisfaction.
- Reduced the loading time of app by 20% using code-splitting and lazy loading resulting in better user experience
- Integrated complex grid / chart libraries for a more interactive UI experience .
- Developed components which deals with huge datasets (10000+ rows) using lazy loading for a smooth user experience.

Education

2021-23

IIIT Pune

M.Tech - CS

2017-21

Pune University

B.E. - CS

Skills

React JS | Javascript | HTML | CSS | Bootstrap | Tailwind UI | Jest | AWS | GIT | Node JS | SQL | Typescript | Figma | Python | C++ |

Achievements

- Secured first place in four esteemed intercity competitive programming competitions.
- Achieved 98th percentile in the demanding National Level Entrance Examination (GATE exam) in India.
- Maintained a consistent 1st rank position throughout all four semesters of my Bachelor's degree program
